### Section 1: Basic Concepts of Community Medicine

#### 1. Introduction to Community Medicine

3

##### Hygiene 3

##### Preventive Medicine 3

##### Social Medicine 3

- Social Anatomy 3
- Social Physiology 4
- Social Pathology 4
- Social Therapy 4

##### Community Diagnosis 4

- Relevance 4
- Purpose 4
- Stages 4
- Community and Hospital Medicine 5

#### 2. Concept of Health

6

##### Physical Dimension 6

##### Mental Dimension 6

##### Social Dimension 6

##### Spiritual Dimension 6

##### Emotional Dimension 6

##### Vocational Dimension 6

##### Positive Health 6

##### Well-Being 6

- Objective Component 6
- Subjective Component 6

##### Human Development Index 7

- Gross Domestic Product 7
- Human Development Index 7

##### Spectrum of Health 7

##### Iceberg of Health 8

##### Determinants of Health 8

- Genetic (Biological) Factors 8
- Environmental Factors 8
- Lifestyle (Way of Living) 8
- Socioeconomic Conditions 8
- Health Services 9
- Aging of the Population 9
- Other Factors 9

##### Indicators of Health 9

- Uses 9
- Mortality Indicators 9
- Morbidity Indicators 10
- Disability Rates 10

- Nutritional Status Indicators 10
- Healthcare Delivery Indicators 10
- Utilization Rates 10
- Indicators of Social and Mental Health 10
- Socioeconomic Indicators 10
- Health Policy Indicators 11
- Environmental Indicators 11
- Indicator of Quality of Life 11
- Other Indicators 11

##### Holistic Health 11

- Basic Principles of Holistic Health 11
- Holistic Treatment 11
- Advantages of Holistic Approach to Health 11
- Disadvantages/Demerits 11

##### Digi Health 12

- Objectives 12
- Products 12

#### 3. Concept of Disease

13

##### Introduction 13

- Germ Theory of Disease Causation 13
- Epidemiological Triad 13
- Theory of Multifactorial Causation (Web of Causation) 13

##### Natural History of Disease 14

- Prepathogenesis Phase 14
- Pathogenesis Phase 15

##### Iceberg Phenomenon of Disease 16

#### 4. Concept of Prevention

17

##### Introduction 17

##### Primary Prevention 17

- Health Promotion 17
- Specific Protection 17

##### Primordial Prevention 17

- Population (Mass) Strategy 17
- High-risk (Individual) Strategy 18

##### Jakarta Declaration on Health Promotion in the 21st Century 18

- Health Promotion is a Valuable (Key) Investment 18
- Determinants of Health: New Challenges 19
- New Approaches/Responses 19
- Call for Action 19

##### Secondary Prevention 19

- Early Diagnosis and Prompt Treatment 19

##### Tertiary Prevention 20

- Disability Limitation 20
- Rehabilitation 20

## Section 2: Environment and Health

### 5. Environment and Water

23

#### Introduction 23

- Physical Environment 23
- Biological Environment 23
- Social Environment 23
- Cultural Environment 23

#### Water 23

#### Water Cycle 24

- Merits of Groundwater 24
- Demerits of Groundwater 24

#### Well 24

- Shallow Well 24
- Deep Well (Driven Well) 24
- Artesian Well 25
- Sanitary Well 25

#### Health Hazards of Water Contamination 25

- Biological Hazards 25
- Chemical Hazards 26

#### Purification of Water 26

- Purification of Water on Large Scale 26
- Purification of Water on Small Scale 31
- Sanitation of the Swimming Pool 35

#### Hardness of Water 36

- Causes 36
- Types 36
- Measurement 36
- Grading 36
- Removal of Hardness 37

#### Conservation of Water Resources 37

- Protection of Water Resources 37
- Building-up of Subsoil Water Reserves 38

#### Laboratory Examination of Water 38

- Physical Examination of Water 38
- Chemical Examination of Water 38
- Biological Examination of Water 39
- Bacteriological Examination of Water 39
- Radiological Examination of Water 41
- Virological Examination of Water 41

#### Water Quality Standards 41

### 6. Air and Ventilation

43

#### Changes in the Air Due to Human Occupancy 43

#### Effects of Vitiated Air 43

#### Indicators of Thermal Comfort 43

- Air Temperature 43
- Air Temperature and Humidity 43
- Air Temperature, Humidity and Air Movement 43
- Effective Temperature 43
- Corrected Effective Temperature 43
- Mcardle's Maximum Allowable Sweat Rate 44
- Comfort Zone 44

#### Air Pollution 44

- Air Pollutants 44
- Sunlight 44

- Temperature Inversion 45
- Sources of Air Pollution 45
- Hazards of Air Pollution 45
- Indicators of Air Pollution 46
- Prevention and Control of Air Pollution 46
- Air Quality Index 46

#### Ventilation 46

- Standards of Ventilation 47
- Systems of Ventilation 47

### 7. Noise

49

- Frequency 49
- Intensity 49

#### Noise Level Values 49

#### Instruments Used in the Study of Noise 49

#### Hazards of Noise Pollution 49

- Auditory Effects 49
- Nonauditory Effects 49

#### Prevention and Control of Noise Pollution 50

- Control of Noise at Source 50
- Increasing the Distance 50
- Reduction of Exposure Time 50
- Acoustic Barrier 50
- Miscellaneous Measures 50

### 8. Light

51

#### Measurement of Light 51

#### Natural Lighting 51

- Measures to Improve Natural Lighting 51

#### Artificial Lighting 51

- Other Sources of Artificial Light 51

#### Health Hazards of Lighting 51

- Biological Effects 52

### 9. Radiation

53

#### Nonionizing Radiations 53

- Ultraviolet Rays 53
- Visible Light 54
- Infrared Rays 54
- Microwaves 54
- Radiofrequency Waves 54
- Laser Radiations 54

#### Ionizing Radiations 54

- Electromagnetic Radiations 54
- Corpuscular Radiations (Particulate Radiations) 54
- Radiation Units 55
- Sources of Ionizing Radiations 55
- Health Hazards of Ionizing Radiations 55
- Epidemiological Points 56

#### Prevention and Control of Radiation Hazards 56

- Primary Prevention 56
- Secondary Prevention 57

### 10. Housing

58

#### Requirements of a House 58

#### Housing Standards 58

#### Housing and Health 59

- Standards of Rural Housing 59

<b>Indicators of Housing</b>	<b>59</b>		
• Physical Indicators	59		
• Economic Indicators	59		
• Social Indicators	59		
<b>Housing Problem</b>	<b>60</b>		
• Measures to Solve the Housing Problem	60		
<b>11. Meteorology</b>	<b>61</b>		
<b>Atmospheric Pressure</b>	<b>61</b>		
• Aneroid Barometer	61		
• Barograph	61		
• Effects on Health	61		
• Management	62		
<b>Air Temperature</b>	<b>62</b>		
• Measurement	62		
• Health Hazards of Air Temperature	64		
<b>Humidity</b>	<b>65</b>		
• Absolute Humidity	65		
• Relative Humidity	65		
• Measurement	66		
<b>Air Movement</b>	<b>66</b>		
• Kata Thermometer	67		
• Comfort Zone	67		
<b>12. Disposal of Wastes</b>	<b>68</b>		
<b>Refuse</b>	<b>68</b>		
• Health Hazards	68		
• Storage of Refuse	68		
• Collection of Refuse	68		
<b>Methods of Refuse Disposal</b>	<b>68</b>		
• Dumping	68		
• Controlled Tipping (Sanitary Landfill)	68		
• Composting	69		
• Manure Pits	69		
• Burial	69		
• Incineration	69		
<b>Recycling of Refuse</b>	<b>70</b>		
<b>Disposal of Excreta</b>	<b>70</b>		
• Sanitation Barrier	70		
• Methods of Disposal of Excreta (Night Soil)	70		
<b>Swachh Bharat Abhiyan (in English, it is Swachh Bharat Mission or Clean India Mission)</b>	<b>75</b>		
• Aim	75		
• Objective	75		
• Performance	75		
<b>E-Toilets</b>	<b>75</b>		
• Background	75		
• Process	75		
<b>Disposal of Sullage</b>	<b>76</b>		
• Soakage Pit	76		
<b>Disposal of Sewage (Sewage Treatment)</b>	<b>76</b>		
• Objectives of Sewage Treatment	76		
• Stages of Sewage Treatment	77		
• Other Methods of Sewage Disposal	79		
<b>Great Sanitary Awakening</b>	<b>80</b>		
<b>13. Management of Hospital Waste</b>	<b>81</b>		
<b>Characteristics of Healthcare Waste</b>	<b>81</b>		
<b>Quantity of Healthcare Waste</b>	<b>81</b>		
<b>Objectives of the Waste Management System</b>	<b>81</b>		
<b>Biomedical Waste Management Rules, 2016</b>	<b>82</b>		
• The Major Salient Features of BMW Management Rules, 2016	82		
<b>Schedule I: Part – 1</b>	<b>83</b>		
<b>Strategies Adopted for Hospital Waste Management</b>	<b>84</b>		
• Waste Reduction and Management Strategy	84		
• Waste Assessment Strategy	84		
• Waste Recycling Strategy	84		
• Hospital Waste Disposal	84		
<b>Available Treatment and Disposal Technologies</b>	<b>85</b>		
• Available Technologies	85		
• Newer Technologies	88		
• Comparison Between Hydroclave, Autoclave and Microwave	89		
• Waste Sharps Management	90		
<b>Decontamination Procedure</b>	<b>91</b>		
• Chemical Treatment	91		
• Autoclaving	91		
<b>Plastic Waste Management</b>	<b>91</b>		
• Shredding	91		
• Plastic Shredder	91		
<b>14. Electronic Waste Management</b>	<b>92</b>		
<b>E-Waste Burden Globally</b>	<b>92</b>		
<b>Burden in India</b>	<b>93</b>		
<b>Sources of E-Waste</b>	<b>93</b>		
• Individuals and Small Businesses	93		
• Large Businesses, Institutions, and Establishments	93		
• Original Equipment Manufacturers	93		
<b>Impacts/Hazards of E-Waste</b>	<b>93</b>		
• Effects on Environment	93		
• Effects on Health	93		
<b>Basel Convention</b>	<b>94</b>		
<b>Waste Minimization Techniques</b>	<b>94</b>		
<b>Management Options</b>	<b>94</b>		
<b>E-Waste Disposal</b>	<b>94</b>		
• E-Waste Recycling	94		
• Landfilling	95		
• Reusing	95		
• Incineration	95		
<b>15. Medical Entomology</b>	<b>96</b>		
<b>Classification of Arthropods</b>	<b>96</b>		
• Vector	96		
<b>Arthropod-borne Diseases</b>	<b>96</b>		
<b>Common Terms Used in Entomology</b>	<b>97</b>		
• Extrinsic Incubation Period	97		
• Infective Mosquito	97		
• Infected Mosquito	97		
• Definitive Host	97		

- Intermediate Host 97
- Infestation 97
- Metamorphosis 97

#### **Principles of Arthropod Control 97**

#### **Arthropods of Public Health Importance 97**

- Class Insecta 98
- Class Arachnida 121
- Class Crustacea 126

#### **Disinsection 127**

- Insecticide Formulations 127
- Disinsection Equipment 128
- Disinsection Methods 128

#### **Insecticide Toxicity 129**

- Organochlorine Compounds 129
- Organophosphorus Compounds and Carbamates 129
- Pyrethrins and Pyrethroids 129

#### **Rodents 129**

- Domestic Rodents 129
- Wild Rodents 130
- Control of Rodents 130

## **Section 3: Nutrition and Health**

### **16. Nutrition and Health**

133

#### **Introduction 133**

- Food 133
- Nutrient 133
- Nutrition 133
- Dietetics 133
- Balanced Diet 133

#### **Classification of Foods 133**

#### **Nutrients 133**

- Macronutrients 133
- Micronutrients 137

#### **Antioxidants 145**

#### **Food Groups 145**

- Cereals 145
- Pulses (Legumes) 146
- Vegetables 146
- Nuts and Oil Seeds 147
- Fruits 147
- Milk and Milk Products 147
- Egg, Meat, and Fish 148
- Fats and Oils 149
- Sugar and Jaggery 149
- Condiments and Spices 149
- Miscellaneous 149

#### **Energy Requirements 150**

#### **Balanced Diet 151**

- Suggested Substitution for Nonvegetarians 151
- Dietary Goals 152
- Dietary Guidelines 152
- Principles of Planning Balanced Diet 152
- Indian Council of Medical Research Recommended Dietary Allowances 152

#### **Food Hygiene 153**

- Food Additives 153
- Food Preservation 153
- Food Processing 155
- Sanitation of Food Establishments (Restaurants, Eating Houses) 155
- Conservation of Nutrients 155
- Food Fortification 156
- Food Adulteration 156
- Milk Hygiene 158
- World Milk Day 159
- Food Allergy 159

#### **Food-related Diseases (Public Health Nutrition Problems) 159**

- Deficiency Diseases 159

#### **Anemia Mukht Bharat (Intensified National Iron Plus Initiative) 167**

- Introduction 167
- Objective 168
- Strategies of Anemia Mukht Bharat 168

#### **Assessment of Iodine Deficiency Disorders 170**

- Indicators 170
- Excess of Food Consumption 172
- Food-borne Intoxications 172
- Food Poisoning 175
- Food-borne Diseases 176

#### **National Nutrition Policy 181**

- Introduction 181
- Strategies 181
- Implementation 182

#### **National Programs on Nutrition 182**

#### **Annexure 182**

## **Section 4: Occupational Health**

### **17. Occupational Health**

187

#### **Burden of Occupational Diseases 187**

- Aims 187
- Objectives 187

#### **Ergonomics 187**

- Working (Occupational) Environment 187
- Domestic Environment 188
- Social Security and Welfare Measures 188

#### **Occupational Hazards 188**

- Physical Hazards 188
- Chemical Hazards 189
- Biological Hazards 189
- Mechanical Hazards 189
- Psychosocial Hazards 189
- Other Hazards 189

#### **Pneumoconioses 189**

- Silicosis 189
- Anthracosis (Coal Workers' Pneumoconiosis) 191
- Asbestosis 191
- Byssinosis 191
- Bagassosis 192

- Farmer's Lung 192
- Prevention and Control of Pneumoconioses 192
- Lead Poisoning (Plumbism) 193**
  - Sources of Lead 193
  - Absorption, Storage and Elimination 193
  - Clinical Features of Plumbism 193
  - Other Epidemiological Features 194
  - Diagnosis 194
  - Management 194
  - Prevention and Control 194
  - Prevention of Plumbism Among Children 194
- Metal Fume Fever (Brass Founder's Ague) 195**
- Occupational Cancers 195**
  - Agent Factors 195
  - Environmental Factors 195
  - Influencing Factors 195
  - Features of Occupational Cancers 195
  - Prevention of Industrial Cancers 195
- Occupational Dermatoses 196**
  - Host Factors 196
  - Prevention 196
- Occupational Health in Agricultural Industry 197**
  - Prevention and Control of Agricultural Hazards 197
- Hazards Due to Industrialization and Urbanization 197**
  - Physical (Environmental) Hazards 197
  - Psychological Hazards 197
  - Social Hazards 198
  - Miscellaneous Hazards 198
- Accidents in Industries 198**
  - Factors Responsible for Accidents 198
  - Causes 198
  - Prevention 198
- Sickness Absenteeism 198**
  - Extent of the Problem 199
  - Causes (Factors Influencing) 199
  - Preventive Measures (Reduction Measures) 199
- Women in Industry 199**
  - Menstruation and Dysmenorrhea 199
  - Pregnancy 199
  - Menopause 199
  - Ability of Women to Work 199
  - Social Security for Women 200
- Health Status of Industry 200**
- Prevention and Control of Occupational Hazards 200**
  - Primary Prevention 200
  - Secondary Prevention 202
  - Tertiary Prevention 202
- Legislation 202**
  - Indian Factories Act, 1948 203
  - Employees' State Insurance Act, 1948 203
  - Scope 204
  - Benefits 204
  - Benefits to Employers 204
  - Workmen's Compensation Act, 1923 205
- Social Security 205**
  - Social Insurance 205

- Social Assistance 205
- Difference Between Social Insurance and Social Assistance 205

### **National Health Insurance Schemes (National Health Portal of India) 205**

- Rashtriya Swasthya Bima Yojana 206
- Ayushman Bharat Yojana [Pradhan Mantri Jan Arogya Yojana (Pmjay)] 207
- Employees State Insurance Scheme 208
- Central Government Health Scheme 208
- Aam Aadmi Bima Yojana 208
- Pradhan Mantri Suraksha Bima Yojana 208
- Janashree Bima Yojana 208
- Universal Health Insurance Scheme 208

## **Section 5: Epidemiology**

### **18. Principles and Practice of Epidemiology 213**

#### **Epidemiology 213**

- Definition 213
- Objectives 213
- Epidemiological Approach 213
- Scope 213
- Measurements 213

#### **Medical Certificate of Cause of Death 219**

- Importance of Death Certificate 219
- Filling Up of the Forms 219

#### **Verbal Autopsy 220**

#### **Epidemiological Studies (Methods) 221**

- Observational Studies 221
- Related Terms 230
- Experimental Epidemiology (Experimental Epidemiological Studies; Interventional Studies) 230
- Nonrandomized Trials 232

#### **Association and Causation 233**

- Association 233
- Causation 233
- Uses of Epidemiology 234

### **19. Epidemiology of Infectious Diseases 236**

#### **Commonly Used Terms 236**

#### **Surveillance 237**

- History of Surveillance 238
- Objectives of Surveillance 238
- Elements of a Surveillance System 238
- Approaches to Surveillance (Data Collecting Procedures) 238

#### **Sentinel Surveillance 239**

- Analysis and Interpretation of Surveillance Data 239
- Presentation of Surveillance Data 239
- Types of Surveillance 239
- Attributes of Surveillance 239
- Uses of Surveillance 240
- Improvement in the Surveillance System 240

#### **Dynamics of Disease Transmission 240**

- Reservoir 240

- Routes of Transmission 241
- Susceptible Host 242

#### **Incubation Period 243**

- Related Terms 243

#### **Investigation of An Epidemic Disease 244**

- Importance 244
- Objectives 244
- Steps 244

#### **Prevention and Control of an Epidemic Disease 245**

- Elimination of Reservoir 246
- Breaking the Channel of Transmission 246
- Protection of Susceptibles 247

#### **Cold Chain 258**

- Definition 258
- Importance 258

#### **Reverse Cold Chain 262**

#### **Screening for Disease 264**

- Aim 265
- Objective 265
- Uses 265
- Types of Screening 265
- Criteria for Screening 265

#### **Disinfection 267**

- Allied Terms 268
- Types of Disinfection 268
- Classification of Disinfectants 268
- Disinfection Procedures 272
- High Level of Disinfection 273

#### **Healthcare-Associated Infections (Nosocomial Infections) 273**

- Agent Factors 273
- Host Factors 273
- Environmental Factors 274
- Modes of Transmission 274
- Colonization and Infection 274
- Types of Healthcare-Associated Infections 274
- Facial Protection 275

#### **Emporiatrics 277**

- Health Problems of Travelers 277
- Problems Faced by Travelers 277
- Health Advice to Travelers 277
- International Health Regulations 2005 277

## **20. Epidemiology of Communicable Diseases 280**

### **Story of Smallpox (Variola Major) (Obituary) 280**

#### **Human Monkeypox 281**

#### **Chickenpox (Varicella; Waterpox) 281**

- Agent Factors 281
- Host Factors 281
- Environmental Factors 281
- Modes of Transmission 281
- Pathology and Pathogenesis 281
- Incubation Period 282
- Clinical Features 282

- Complications 282
- Management 282
- Prevention 282

#### **Acute Respiratory Infections 283**

- Magnitude of the Problem 283
- Classification 283
- Agent Factors 283
- Host Factors 283
- Environmental Factors 284
- Social Factors 284
- Prevention and Control 284

#### **Measles (Morbilli; Rubeola) 285**

- History 285
- Extent of the Problem 286
- Agent Factors 286
- Host Factors 286
- Environmental Factors 286
- Pathogenesis 286
- Incubation Period 286
- Clinical Features 286
- Complications 287
- Prevention and Control 287
- Other Points 289
- Measles–Rubella Vaccination Campaign–2017 289
- Commitment of Measles Elimination by 2020: Challenges in India 289
- German Measles (Rubella) 291
- Congenital Rubella (Rubella Syndrome) 292

#### **Mumps 293**

- Agent Factors 293
- Host Factors 293
- Environmental Factors 293
- Incubation Period 293
- Clinical Features 293
- Complications 293
- Prevention and Control 293

#### **Influenza 294**

- History 294
- Agent Factors 294
- Host Factors 296
- Environmental Factors 296
- Influenza Types 296
- Magnitude of the Problem 297
- Modes of Transmission 297
- Clinical Presentation 297
- Laboratory Diagnosis 298
- Case Definitions for Avian and Pandemic Influenza 299
- Revised Guidelines by Ministry of Health and Family Welfare 300
- WHO Phasing of Pandemic Influenza 301
- Asian Lineage Avian Influenza, H7N9 Virus 301

#### **Diphtheria 303**

- Magnitude of the Problem 304
- Agent Factors 304
- Host Factors 304
- Environmental Factors 304
- Modes of Transmission 304

- Portal of Entry 304
- Pathology and Pathogenesis 305
- Clinical Features 305
- Complications of Diphtheria 305
- Schick Test 305
- Treatment 306
- Prevention and Control 306
- Immunization 306
- Community Diagnosis of Diphtheria 308

#### **Whooping Cough (Pertussis) 308**

- Agent Factors 308
- Host Factors 309
- Environmental Factors 309
- Modes of Transmission 309
- Incubation Period 309
- Pathology and Pathogenesis 309
- Clinical Features 309
- Complications 309
- Management 309
- Prevention 309

#### **Meningococcal Meningitis (Cerebrospinal Fever or Cerebrospinal Meningitis) 309**

- Distribution 310
- Agent Factors 310
- Host Factors 310
- Environmental Factors 310
- Period of Communicability 310
- Pathogenesis 310
- Incubation Period 310
- Clinical Features 310
- Complications 310
- Prognosis 311
- Prevention and Control of Epidemic Meningitis 311
- *Haemophilus influenzae* Meningitis 311

#### **Tuberculosis 312**

- Memorable Discoveries and Milestones 312
- Burden of Tuberculosis 312
- Points of Serious Concern 312
- Epidemiological Indices (Measurement of TB) 313
- Agent Factors 313
- Host Factors 313
- Risk Factors 313
- Modes of Transmission 314
- Incubation Period 314
- Clinical Features 314
- Complications 314
- Investigations 314
- Prevention and Control 316
- Treatment Outcomes of TB Patients 318
- Adherence to Anti-tuberculosis Drugs 319

#### **Tuberculosis and HIV 322**

- Statistics 322
- Impact of HIV on TB 322
- Impact of TB on HIV 322
- Clinical Presentation 322

#### **Severe Acute Respiratory Syndrome 322**

- Agent Factors 322
- Host Factors 323

- Mode of Transmission 323
- Period of Infectivity 323
- Incubation Period 323
- Clinical Features 323
- Investigations 323
- Treatment 323
- Prevention and Control 323
- Instructions to Household Contacts 324
- SARS—What We Need to Know? 324

#### **Typhoid Fever 325**

- Milestones 325
- Magnitude of the Problem 325
- Agent Factors 325
- Host Factors 326
- Environmental Factors 326
- Predisposing Factors (Social Factors) 326
- Mode of Transmission 326
- Pathology and Pathogenesis 326
- Incubation Period 327
- Clinical Features 327
- Investigations 327
- Complications 327
- Treatment 327
- Prevention and Control 327

#### **Acute Diarrheal Diseases 328**

- Magnitude of the Problem 329
- Causes of Diarrhea 329
- Agent Factors 329
- Host Factors 329
- Environmental Factors 330
- Predisposing Factors 330
- Mode of Transmission 330
- Related Terms 330
- Incubation Period 330
- Clinical Features 330
- Degree of Dehydration 330
- Prevention and Control 332
- Newer Antidiarrheal Vaccines 333
- Oral Replacement Therapy—Corner 333
- Intensified Diarrhoea Control Fortnight 334

#### **Cholera 334**

- History 334
- Magnitude of the Problem 334
- Epidemiological Features 334
- Agent Factors 335
- Host Factors 335
- Environmental Factors 335
- Modes of Transmission 335
- Predisposing Factors 335
- Pathology and Pathogenesis 335
- Incubation Period 335
- Clinical Features 335
- Laboratory Investigations 336
- Prevention and Control 336

#### **Viral Hepatitis 337**

- Hepatitis A 337
- Hepatitis B 339
- Hepatitis C 342
- Hepatitis D 344

- Hepatitis E 344
- Hepatitis G 344
- Global Health Sector Strategy on Viral Hepatitis 344

#### **Poliomyelitis 345**

- History 345
- Magnitude of the Problem 345
- Agent Factors 346
- Host Factors 346
- Environmental Factors 346
- Risk Factors (Provocative Factors) 346
- Modes of Transmission 346
- Pathology and Pathogenesis 346
- Clinical Spectrum 347
- Diagnosis 347
- Management 347
- Prevention and Control 347
- Immunization 348
- Eradication of Poliomyelitis 350
- Pulse Polio Immunization 350
- Eradication of Poliomyelitis 350

#### **Dracunculiasis 350**

- Magnitude 350
- Agent Factors 350
- Host Factors 350
- Environmental Factors 350
- Social Factors 351
- Life Cycle 351
- Mode of Transmission 351
- Incubation Period 351
- Pathogenic Effects and Clinical Features 351

- Constitutional Safeguards 541
- Legislations Related to Children 542
- Institutional Framework for Child Welfare 542
- Child Welfare Schemes 542
- Schemes for Health and Nutrition of the Children 542

### **23. Demography 544**

#### **Demographic Cycle**

#### **(Demographic Stages) 544**

- Stages of Demographic Cycle 544

#### **Size of the Population**

#### **(Magnitude of the Population) 544**

- Census 544

#### **Epidemiological Transition 545**

#### **Sample Registration System 546**

- Introduction of Srs 546
- Objective 547
- Components 547
- Sample Design 547
- Sample Size 547

**Population Trend in the World 547****Population Trend in India 548****Composition of the Population 548**

- Age and Sex Composition (Population Pyramid) 548
- Literacy Level 549
- Crude Literacy Rate 549
- Effective Literacy Rate (ELR) 550
- Dependency Ratio 550
- Occupational Composition 550
- Socioeconomic Status 550
- Housing (Living Condition) 550
- Marital Status 550
- Religion 550
- Languages Spoken 550
- Life Expectancy (Expectation of Life) 550
- Family Size 550

**Gender Equity 550**

- Benefits of Gender Equity 551

**Gender Equality 551****Demographics of India 551**

- Demographic Profile of India 551

**Distribution of the Population 551**

- Urbanization 552

**Population Dynamics 552**

- Marriages 552
- Fertility 552
- Measurement of Mortality 553
- Migration 554

**Population Explosion****(Population Bomb) 554**

- Reasons for Population Explosion 554
- Causes of High Birth Rate 554
- Causes of Low Death Rate 554
- Hazards of Population Explosion 554

**Population Stabilization 555**

- Reduction of Birth Rate 555

**24. Family Planning 556****Scope of Family Planning Services 556**

- Concept of Family Welfare 556
- Eligible Couple 556
- Couple Protection Rate 556
- Target Couples 557
- Unmet Need for Family Planning 557

**Contraceptive Methods****(Fertility-Regulating Methods; Techniques of Birth Control) 557**

- Temporary (Nonterminal Methods; Spacing Methods) 557

**Medical Termination of Pregnancy Amendment Bill, 2020 569**

- Provisions of the Original MTP Act, 1971 569
- Problems with the MTP Act, 1971 569
- Terminal Methods (Permanent Methods; Sterilization Methods) 572

**Male Contraception 574**

- Outercourse 574
- Researches 574
- Newer Methods 574

**Evaluation of Contraceptive Methods 574****Social Marketing 575****25. Biostatistics 576****Variability 576****Applications of Biostatistics 576****Types and Sources of Data 576**

- Continuous Data 576
- Discrete Data 576
- Sources of Data 576
- Sources of Health Statistics 577

**Presentation of Statistical Data 577**

- Tabulation 577
- Diagrammatic Presentation 578
- Degree 582
- Percentage of Accidents 582

**Measures of Central Tendency 583**

- Mean 583
- Median 584
- Mode 585

**Measures of Location: Quantiles 585****Measures of Dispersion 586**

- Range 586
- Mean Deviation 586
- Standard Deviation 586
- Coefficient of Variation 587

**Probability 588**

- Probability Distributions 588
- Normal Distribution and Normal Curve 588

**Sampling 591**

- Characteristics of a Representative Sample 591
- Census Enumeration versus Sampling Enumeration 591
- Sampling Designs (Sampling Methods and Sampling Techniques) 592
- Size of the Sample 593
- Calculation of Sample Size 594
- Errors in Sampling 594
- Sampling Variation 595

**Significance 595**

- Null Hypothesis (Denoted as  $H_0$ ) 596
- Tests of Significance 596
- Standard Error of the Difference Between Two Means 597
- Conclusion 601

**Correlation and Regression Correlation 604**

- Interpretation of Bivariate Data 604
- Correlation Coefficient 605
- Regression 606

**Life Table 606**

- Description 607
- Uses of Life Table 607

**Meta-analysis 608**

- Steps in a Meta-analysis 608
- Advantages 608

- Table of Unit Normal Distribution 608
- Table of Random Numbers 609
- Table of  $\chi^2$  Distribution 610
- Kendall's Table 611

## 26. Social Science

### Community 612

### Culture 612

### Acculturation 613

### Family System 613

### Family Cycle 613

### Family Types 613

- Nuclear Family (Elementary; Primary Family) 613
- Extended Primary Family 613
- Three Generation Family 613
- Joint Family (Joint Extended Family) 613
- Broken Family (Broken Home) 613
- Problem Family 614
- Differences Between Joint Family and Nuclear Family System 614

## Section 7: Health Administration and Organization

### 33. Tribal Health

667

#### Introduction 667

- Highlights of Tribal Health Report (2013) 667
- Tribal Health in North-East India 668
- Diagnosis of Tribal Health 668

#### Recommendations 669

- Principles of Health Care Services for the Tribal People 669
- Goals 669
- Organization of Service Delivery 669
- Addressing the Ten Special Problems In Tribal Health 671

### 34. Health for All

673

#### Meaning 673

#### Historical Perspective 673

#### Importance 673

#### Milestones 673

- Health Policy Indicators 674
- Health Care Delivery Indicators 674
- Socioeconomic Indicators 674
- Health Status Indicators (Demographic Goals) 674

### 35. Millennium Development Goals

675

### 36. Sustainable Development Goals

679

#### Background 679

- Description 679
- Vision 680

#### Health Goal and Health Targets 680

### 37. Health Care

682

#### Three-Tier System of Health Care 682

- Primary Health Care 682

#### Selective Primary Health Care 684

#### Universal Health Coverage 685

- Key Facts 685
- Objectives 685
- Progress Towards UHC (Strategies) 685
- Universal Health Coverage in India 686

#### Organizational Framework of Health-Care Systems 687

- Public Health Sectors 687

#### Indian Public Health Standards for Sub-centers (Revised 2012) 693

- Objectives of IPHS 693
- Categorization of Sub-centers 693

- Private Sector 700
- Indigenous System of Medicine 700

#### Health and Wellness Centres 700

- Key Elements/Components 701
- Key Principles 701

### 38. National Health Mission

703

#### National Health Mission 703

- Introduction 703
- Vision of NHM 703
- Financing Components 704

#### National Rural Health Mission 704

- Vision of the Mission 704
- Objectives of the Mission 704

#### National Urban Health Mission 707

- Goals 707
- Interventions 707
- Service Delivery 707
- Service at Community Level 708
- Services Rendered by ASHA 708
- Mahila Arogya Samiti 708

#### Autodisable Syringes 708

- Advantages of Autodisable Syringes 709
- Instructions 709
- Disposal of Autodisable Syringes 709

#### Schemes 710

- Reproductive, Material, Newborn, Child and Adolescent Health (RMNCH+A) 710
- India Newborn Action Plan 711
- Janani Suraksha Yojana 711
- Janani-Shishu Suraksha Karyakram 713
- Navjaat Shishu Suraksha Karyakram 713
- Rashtriya Bal Swasthya Karyakram 714
- Journey of First Thousand Days 714
- Initiates by GOI Under National Health Mission for Child Health Promotion 714
- Thrust Areas Under Child Health Program 714
- Rashtriya Kishor Swasthya Karyakram 716
- Surakshit Matruva Aashwasan 717
- Pradhan Mantri Surakshit Matruva Abhiyan 717
- Rogi Kalyan Samiti 718
- Public Private People Partnership 719

### 39. Health Planning and Management

721

#### Health Planning 721

- Definition 721
- Purpose of Planning 721
- Pre-planning 721
- Strategic Planning 722
- Health Management 723
- Management Methods 723

#### Health Information Technology 724

- Merits 725
- Demerits 726

### 40. National Health Planning

727

#### Bhore Committee Report, 1946 727

## Section 8: Allied Subjects

### 47. Emerging and Re-emerging Infectious Diseases 819

#### Emerging Infectious Diseases 819

- Human Monkeypox 819
- New Types of Diarrheal Diseases 819
- Legionnaires' Disease or Legionellosis 819
- Ebola Virus Disease 819
- Acquired Immunodeficiency Syndrome 821
- Hanta Virus Pulmonary Syndrome 821
- Middle East Respiratory Syndrome 821
- Creutzfeldt-Jakob Disease (Spastic Pseudoparalysis) 822
- Hepatitis E 822
- Severe Acute Respiratory Syndrome 822
- Hepatitis C 822
- Nipah Virus Disease 822
- Zika Disease 824
- Diseases due to New Variants of Known Pathogens 825
- Diseases Caused by an Infectious Agents but Resulting in Noncommunicable Diseases 825
- Corona Virus Disease-2019 825

#### Re-emerging Infectious Diseases 829

- Malaria 829
- Kala-azar (Visceral Leishmaniasis) 829
- Dengue Fever 829
- Plague 830
- Predisposing Factors for the Epidemic 830
- Control of Emerging and Re-emerging Diseases 830

### 48. Disaster Management 831

#### Definition 831

#### Impact 831

#### Classification of Disasters 831

- Natural Disasters 831
- Manmade Disasters 832

#### Disaster Management Cycle 832

- Disaster Impact 832
- Response 833
- Rehabilitation 833
- Mitigation 833
- Preparedness 833

#### Floods and Health 834

- Types of Floods 834
- Major Causes of Floods 834
- Hazards of Floods 834
- Safety Measures to Reduce the Impact of Floods 836
- Prevention of Floods 836

### 49. Integrated Disease Surveillance Project: 2004–2009 837

#### Surveillance 837

- Project 837
- Objectives 837
- Types of Surveillance in Integrated Disease Surveillance Project 837
- Surveillance Actions 838
- Warning Signs of an Impending Outbreak 839
- Epidemic Response 839
- Intensifying the Information, Education and Communication Activities by the Following Measures 839
- Monitoring and Evaluation 839

### 50. Bioterrorism 840

#### Historical Background 840

#### Evolution of Chemical and Biological Weapons 840

- Merits 840
- Demerits 840
- Top Biological Weapons 841
- Delivery of Biological Weapon 841

#### Combating Biological Weapons Incident/at Risk Group 841

- Steps to be Taken 841
- Future Suggestions (Prevention and Control Measures) 842
- Finally 842

### 51. Global Warming 843

#### History of Global Warming 843

#### Hazards of Global Warming 843

#### Who is the Worst Polluter? 844

#### Kyoto Protocol 844

#### Action Needs to be Taken Now 845

- Containment Measures 845

### 52. Integrated Management of Neonatal and Childhood Illness 846

#### Strategy 846

#### Basis of IMNC Guidelines 846

- In Health Facilities, the Strategy 846
- In Home Settings, the Strategy 847
- Advantages of IMNCI Strategy 847

#### Integrated Case Management Process 847

### 53. Telemedicine in Public Health 848

#### Definition 848

#### Aim of Telemedicine 848

#### Utility of Telemedicine 848

<b>Types of Technology 849</b> <ul style="list-style-type: none"> <li>• Store and Forward 849</li> <li>• Two-way Interactive Television 849</li> </ul> <b>Infrastructures of Telemedicine Centers 849</b> <b>Telecommunication Technologies 849</b> <ul style="list-style-type: none"> <li>• Requirement Specification 849</li> </ul> <b>An Epidemiological Surveillance 850</b> <b>Interactive Health Communication and Disease Prevention 850</b> <b>Telemedicine in India 850</b> <ul style="list-style-type: none"> <li>• Advantages of Telemedicine in India 850</li> </ul> <b>Current Efforts in India 851</b> <b>Ten Commandments for Success of Telemedicine 851</b>	
<b>54. Tobacco and Health 853</b>	
<b>History 853</b> <b>Tobacco Prevalence 853</b> <b>Prevalence of Smoking 853</b> <b>Public Health Importance 853</b> <b>Types of Tobacco 854</b> <ul style="list-style-type: none"> <li>• Cigarettes 854</li> <li>• Beedis 854</li> <li>• Hookah 854</li> <li>• Dissolvable Tobacco 854</li> <li>• Gutka 854</li> </ul> <b>Composition of Smoke 854</b> <b>Health Hazards of Tobacco 854</b> <ul style="list-style-type: none"> <li>• Occupational Health Hazards of Tobacco Industry 854</li> <li>• Health Hazards due to Tobacco Smoking 855</li> </ul> <b>Health Benefits of Smoking 856</b> <ul style="list-style-type: none"> <li>• Quitting Smoking 856</li> </ul> <b>Prevention and Control of Health Hazards of Smoking 856</b> <b>Legislative Measures 857</b> <b>National Tobacco Control Programme (NTCP) 858</b>
