

Contents

1. Anatomy of the Female Pelvic Organs	1
External Genital Organs	1
Internal Genital Organs	3
Other Internal Organs	11
Pelvic Muscles	13
Perineum	15
Pelvic Fascia and Cellular Tissue	17
Ligaments	17
Applied Anatomy	19
2. Blood Vessels, Lymphatic Drainage and Innervation of Pelvic Organs	20
Pelvic Blood Vessels	20
Pelvic Lymphatics and Lymph Nodes	22
Pelvic Nerves	24
3. Development of Genital Organs and Gonads	26
Development of External Genital Organs	26
Development of Internal Genital Organs	28
Development of the Ovary	29
Indifferent or Primitive Gonad	30
Definitive Gonad	30
Male and Female Embryonic Structure	30
Descent of the Ovary	31
Developmental Anomalies of Female Reproductive Organs	31
4. Congenital Malformation of Female Genital Organs	32
Developmental Anomalies of the External Genitalia	32
Vaginal Abnormalities	32
Uterine Anomalies	35
Abnormalities of the Fallopian Tubes	37
Anomalies of the Ovaries	37
Wolffian Remnant Abnormalities	37
Parovarian Cyst	37
Other Abnormalities	38
5. Puberty—Normal and Abnormal	39
Endocrinology in Puberty	39
Common Disorders of Puberty	40
6. Menopause	46
Definition	46
Age of Menopause	46
Clinical Importance	46
Endocrinology of Menopausal Transition and Menopause	46
Menstruation Pattern Prior to Menopause	48
Menopausal Symptoms	48
Diagnosis of Menopause	49
Management	50
Abnormal Menopause	52

7. Neuroendocrinology in Relation to Reproduction—Dr B N Chakravorty	54
Hypothalamus	55
Pituitary Gland	57
Ovary	59
Thyroid Glands	63
Adrenal Glands	63
Hypothalamo-pituitary-ovarian Axis	63
Ovarian and Menstrual Cycle	65
8. Menstruation	67
Follicular Growth and Atresia	67
Endometrial Cycle	72
Menstrual Symptoms	77
9. Examination of a Gynecological Patient and the Diagnostic Procedures	81
History	81
Examination	82
General and Systemic Examination	82
Gynecological Examination	82
Diagnostic Procedures	88
10. Imaging Techniques, Other Diagnostic Procedures and Laser in Gynecology	97
Imaging Techniques in Gynecology	97
Other Diagnostic Procedures in Gynecology	102
Laser in Gynecology	103
11. Pelvic Infection	105
Defense of the Genital Tract	105
Acute Pelvic Infection	106
Chronic Pelvic Infection	112
Genital Tuberculosis	113
Vulvar Tuberculosis	118
Cervical Tuberculosis	119
Actinomyces Infection	119
12. Sexually Transmitted Infections	121
Gonorrhoea	121
Syphilis	123
Chlamydial Infections	124
Chancroid (Soft Sore)	124
Lymphogranuloma Venereum	125
Granuloma Inguinale (Donovanosis)	125
Bacterial Vaginosis	125
Herpes Genitalis	126
Human Immunodeficiency Virus Infection and Acquired Immunodeficiency Syndrome	127
Genital Warts (Condyloma Acuminata)	129
Molluscum Contagiosum	130
Pediculosis Pubis	130
Scabies	130
13. Infections of the Individual Pelvic Organ	132
Vulvar Infection	132
Infections of Bartholin's Gland	132
Vaginal Infection (Vaginitis)	133
Toxic Shock Syndrome	137
Cervicitis	137

Endometritis	138
Pyometra	138
Salpingitis	139
Oophoritis	142
Parametritis	142
Pelvic Abscess	143
Syndromic Management of Sexually Transmitted Infections (WHO – 1991)	144
Other Gynecologic Infections	144
14. Dysmenorrhea and Other Disorders of Menstrual Cycles	147
Dysmenorrhea	147
Other Disorders to Cause Menstrual Pain	150
Premenstrual Syndrome	150
15. Abnormal Uterine Bleeding	154
Common Causes of Abnormal Uterine Bleeding	154
PALM–COEIN	154
Patterns of Abnormal Uterine Bleeding	154
Dysfunctional Uterine Bleeding	156
16. Displacement of the Uterus	165
Retroversion	165
Pelvic Organ Prolapse	166
Chronic Inversion	185
17. Infertility—Dr B N Chakravorty	188
Definition	188
Causes	188
Investigations	191
Treatment	198
Artificial Insemination	205
Assisted Reproductive Technologies	206
Micromanipulation	209
Gestational Carrier Surrogacy	209
Prognosis of Infertility	210
18. Benign Lesions of the Vulva and Vagina	213
Vulvar Epithelial Disorders	213
Vulvar Ulcers	216
Miscellaneous Swellings	217
Benign Tumors of the Vulva	217
Vaginal Wall Cysts	218
Vulvar Pain Syndrome	218
19. Benign Lesions of the Cervix	220
Cervical Ectopy (Erosion)	220
Eversion (Ectropion)	221
Cervical Tear	221
Cervical Cysts	221
Elongation of the Cervix	222
20. Benign Lesions of the Uterus	224
Leiomyomas	224
Incidence	224
Histogenesis	224
Body or Corporeal Fibroids	227
Secondary Changes in Fibroids	227

Management of Fibroid Uterus	231
Cervical Fibroid	234
Polyps	235
21. Benign Neoplasms of the Ovary	239
Normal Ovary	239
Ovarian Enlargement	239
Non-neoplastic	239
Benign Ovarian Neoplasms	241
Borderline Epithelial Tumors	250
Parovarian Cyst	250
22. Endometriosis and Adenomyosis	252
Endometriosis	252
Adenomyosis	262
23. Premalignant Lesions	266
Premalignant Vulvar Lesions	266
Vaginal Intraepithelial Neoplasia	267
Cervical Intraepithelial Neoplasia	268
Premalignant Endometrial Lesion	275
24. Genital Malignancy	279
General Considerations	279
Vulvar Carcinoma	279
Vaginal Carcinoma	283
Carcinoma Cervix	284
Endometrial Carcinoma	297
Gestational Trophoblastic Disease	303
Malignant Tumors of the Ovary	309
Germ Cell Tumors of the Ovary	320
Metastatic Tumors of the Ovary	324
Fallopian Tube Carcinoma	327
Sarcoma Uterus	328
Sarcoma Botryoides	329
25. Urinary Problems in Gynecology	331
Anatomy of Vesicourethral Unit	331
Physiology of Micturition	333
Urinary Continence	334
Urinary Incontinence	335
Genuine Stress Incontinence	335
Stress Urinary Incontinence	335
Urge Incontinence	341
Overactive Bladder	341
Painful Bladder Syndrome	343
Overflow Incontinence	343
Voiding Disorder	343
Urinary Tract Infections	344
Dysuria	346
Urethral Caruncle	346
26. Genitourinary Fistula	349
Genitourinary Fistula	349
Vesicovaginal Fistula	349
Urethrovaginal Fistula	354
Ureteric Injury in Gynecologic Surgery	354
Rectovaginal Fistula	356

27. Genital Tract Injuries and Anorectal Dysfunctions	359
Complete Perineal Tear	359
Coital Injuries	363
Rape Victims	363
Direct Trauma	364
Foreign Bodies	364
Functional Anorectal Dysfunctions	365
Anal Incontinence	365
28. Disorders of Sexual Development—Dr B N Chakravorty	367
Embryological Considerations	367
Determination of Sex	367
46,XX DSD (Adrenogenital Syndrome)	368
45,XO Sex Chromosome DSD (Turner's Syndrome)	369
46,XY DSD (Androgen Insensitivity Syndrome)	370
46,XY DSD (Swyer Syndrome)	372
True Hermaphroditism	372
Diagnosis of DSD	372
Management of DSD	372
29. Amenorrhea—Dr B N Chakravorty	376
Clinical Types	376
Primary Amenorrhea	377
Secondary Amenorrhea	383
Polycystic Ovarian Syndrome	384
Premature Ovarian Insufficiency	389
Hypothalamic (Factors) Amenorrhea	390
Pituitary Factors	391
Investigations of Secondary Amenorrhea	393
Management of Secondary Amenorrhea	395
30. Contraception	398
Methods of Contraceptions	398
Temporary Methods	398
Intrauterine Contraceptive Devices	398
Steroidal Contraceptions	405
Progestogen-only contraceptions	410
Emergency Contraception	412
Sterilization	414
Barrier Methods	420
Ongoing Trials and Selective Availability	423
31. Basic Principles of Radiation Therapy, Chemotherapy, Immunotherapy and Gene Therapy in Gynecology	425
Radiation Therapy	425
Chemotherapy	430
Immunotherapy	436
Genetics and Gynecologic Malignancy	437
Tumor Markers	438
32. Hormones in Gynecological Practice—Dr B N Chakravorty	440
Nomenclatures	440
Hypothalamic Hormones	440
Gonadotropins	442
Gonadal Hormones	446
Adrenocortical Hormones	452
Thyroid Hormone	452

33. Gynecological Problems from Birth to Adolescence	455
Introduction	455
Common Clinical Problems	455
Neonates, Toddlers and Infants	455
Premenarcheal	457
Postmenarcheal to Adolescence	458
Neoplasm	459
Sexually Transmitted Infections	460
34. Special Topics	463
Abnormal Vaginal Discharge	463
Pruritus Vulvae	464
Pelvic Pain	465
Ovarian Remnant Syndrome	469
Postmenopausal Bleeding	469
Low Backache	470
Breast in Gynecology	471
Emotional, Psychosexual Issues and Female Sexuality	476
Abdominopelvic Lump	478
Adnexal Mass	479
Hirsutism	481
Galactorrhea	486
35. Operative Gynecology	488
Preoperative Preparations	488
Intraoperative Care	490
Postoperative Care	491
Gynecological Operations	492
Major Surgical Operations	498
Postoperative Complications and Care	501
Operations on the Ovary	503
Operations for Inversion of the Uterus	505
Ventrosuspension Operation	506
Abdominal Myomectomy	506
Radical Hysterectomy	507
Operations on the Vulva	509
Radical Vulvectomy with Bilateral Inguinofemoral Lymphadenectomy	510
36. Endoscopic Surgery in Gynecology	512
History	512
Basic Instruments and Electrosurgical Units for Laparoscopic Surgery	513
Surgical Techniques	517
Operative Laparoscopy	518
Robotic Surgery in Gynecology	519
Hysteroscopy	520
37. Current Topics in Gynecology	525
Stem Cells and Therapies in Gynecology	525
Properties of Stem Cells	525
Use of Embryonic Stem Cells in Regenerative Medicine	525
38. Practical Gynecology	527
Instruments	527
Suture Materials	547
Specimens	548
Plates: Skiagraphs, Ultrasonographs, Computed Tomographs, and Magnetic Resonance Imagings	559
<i>Index</i>	571
