

Contents

Section 1: General Surgery 1

1. Perioperative Journey of a Patient 3

- Preoperative Evaluation: "The Optimized Patient" 4
- Type and Grading of Surgery 5
- American Society of Anesthesiologists Status 5
- Evaluation of Cardiac Status Before Noncardiac Surgery 6
- Clinical Predictors of Perioperative Death, Myocardial Infarction, or Heart Failure 7
- Risk Factors of Coronary Artery Disease 7
- Preoperative Workup of the Patient for Cardiac Status 8
- Cardiac Risk Stratification for Noncardiac Surgical Procedures 8
- Evaluation of Thrombotic Risk: Management of Antithrombotics 9
- Monitoring During Anticoagulation 13
- Role of Thromboelastography 14
- Renal Status: Important Points 15
- Patients with Diabetes 15
- Pulmonary Comorbidities for Nonpulmonary Surgery 16
- Management of Patients on Long-term Steroids 16
- Management of Liver Disease Patients in the Perioperative Period 17
- Deep Vein Thrombosis and its Prophylaxis 17
- Nutritional Assessment of Surgical Patient 18
- Techniques of Minimal Access Surgery 19
- Basics of Laparoscopy 20
- Robotic Surgery 22
- Natural Orifice Transluminal Endosurgery 22
- Day Case Surgery 23
- Enhanced Recovery After Surgery (Fast-Track Surgery) 24
- Basics of Patient Consent 26
- Preanesthetic Medication 27
- Intraoperative Care 27
- WHO Surgical Safety Checklist 28
- Surgical Diathermy or Electrosurgery 29
- Special Issues with Laparoscopic Electrosurgery 31
- Ablative Techniques Used in Surgery 31
- Prophylactic Antibiotics in Surgery 31
- Postoperative Care 33
- Surgical Site Infection 35

2. Wound Healing 41

- Phases and Types of Wound Healing 41
- Nonhealing Wound: Causes and Management 42

- Wound Dressings and its Types 43
 - Pressure Sore Management 44
 - Keloid and Hypertrophic Scar 45
- 3. Fluid and Electrolyte Balance 48**
- Hot Favorite for Examinations 48
 - Fluid Balance in Patients and Surgery 48
 - Hyponatremia 49
 - Hypernatremia 51
 - Potassium Homeostasis 51
 - Hypokalemia 51
 - Hyperkalemia 52
 - Disorder of Calcium Metabolism 53
 - Hypercalcemia 54
 - Hypocalcemia 54
 - Acid-Base Disorders 55
 - Plasma Expanders 58
- 4. Endocrine and Metabolic Response to Stress/Surgery/Injury 62**
- Endocrine Response to Stress 62
 - Total Parenteral Nutrition 62
 - Enteral Nutrition 65
- 5. Blood Transfusion and Related Topics 69**
- Disseminated Intravascular Coagulation 69
 - Blood "Substitutes" 70
 - Blood Components 71
 - Indications of Blood Transfusion 72
 - Complications of Blood Transfusion 72
- 6. Shock in Surgical Patients 76**
- Blalock's Etiological Classification of Shock 76
 - Differential Diagnoses of Shock Types 77
 - Septic Shock Management (Campaign Guidelines–2021) and Multiple Organ Dysfunction Syndrome 77
 - Hemorrhagic Shock and Lethal Triad 81
- 7. Surgical Infections 84**
- Tubercular Lymphadenopathy 84
 - Ludwig's Angina 85
 - Tetanus: Prophylaxis and Management 86
 - Gas Gangrene 87
 - Necrotizing Fasciitis 88
 - Carbuncle 89
 - Madura Foot 90
 - Anatomy of Palmar Spaces 91
 - Acute Paronychia and Felon 92

- Hydatid Cyst and Related Diseases 93
- Entamoeba Histolytica and Related Diseases 94
- Actinomycosis 95

8. Trauma and Surgery 98

- Advanced Trauma Life Support—Basics 98
- Flail Chest 99
- Field Management of Disaster 100
- Damage Control in Surgery and Damage Control Resuscitation 101
- Faciomaxillary Trauma, Le Fort and Mandible Fractures 102
- Crush Injury and Rhabdomyolysis 104

9. Salivary Glands 108

- Classification of Salivary Gland Neoplasms 108
- Pleomorphic Adenoma 108
- Warthin Tumor/Adenolymphoma 109
- Superficial Parotidectomy and its Complications 109

10. Miscellaneous Topics 112

- Surgical Audit 112
- Ethics and its Impact on Patient Management 113
- Universal Precautions or Standard Precautions 114
- Needle Prick Injury from a HIV Positive Patient 114
- Postexposure Prophylaxis 115
- Probiotics, Prebiotics and Synbiotics 116
- Biopsy and its Types 117
- Fine Needle Aspiration Cytology 118
- Sterilization and Disinfection 119
- Hospital Waste Management 120
- Tracheostomy 121
- Suture Materials 121
- Topical Hemostatic Agents 122

Section 2: Gastrointestinal Surgery 125

11. Esophagus 127

- Esophageal Anatomy—Key Points 127
- Important Conditions with Names 128
- Classic Triads in Esophageal and Stomach Disorders 129
- Portal Hypertension and Esophageal Varices 129
- Cirrhosis 131
- Variceal Hemorrhage 134
- Role of TIPPS and Surgery in Patients with Portal Hypertension 136
- Dysphagia: Causes and Management 140
- Esophageal Motility Disorders and Achalasia 141
- Gastroesophageal Reflux Disease and Barrett's Esophagus 143
- Barrett's Esophagus 145

- Esophageal Diverticula 146
 - Esophageal Perforation 147
 - Corrosive Injury/Ingestion in Upper Gastrointestinal Tract 149
- 12. Stomach and Duodenum 153**
- Blood Supply and Lymphatic Drainage of Stomach 153
 - Physiology of Gastric Acid Secretion 154
 - Gastric Outlet Obstruction 156
 - *H. pylori* Infection and Management of Peptic Ulcer Disease 157
 - Peptic Ulcer Disease 158
 - Postgastrectomy Problems and Dumping Syndrome 161
 - Upper Gastrointestinal Bleeding Management 162
 - Morbid Obesity Management 164
- 13. Small Intestine 170**
- Short Bowel Syndrome and Intestinal Failure 170
 - Enterocutaneous Fistula and its Management 172
 - Meckel's Diverticulum 173
 - Intussusception 174
 - Mesenteric Ischemia 175
 - Superior Mesenteric Artery Syndrome 178
 - Abdominal Tuberculosis and its Management 179
 - Intestinal Obstruction 180
 - Adynamic Intestinal Obstruction 183
- 14. Large Intestine and Intestinal Stomas 186**
- Relevant Anatomy 186
 - Ulcerative Colitis and Crohn's Disease 187
 - Lower Gastrointestinal Bleeding and its Management 189
 - Lower Gastrointestinal Bleed 189
 - Volvulus (Cecal and Sigmoid) 191
 - Diverticulitis (Peridiverticulitis) 192
 - Intestinal Stomas 193
- 15. Appendix 198**
- Appendicitis 198
 - Appendicular Lump and Ochsner–Sherren Regime 200
 - Appendiceal Mucocele 200
- 16. Rectum and Anal Canal 202**
- Anatomy of the Anal Canal 202
 - Blood Supply of the Rectum 204
 - Fissure-in-Ano 205
 - Fistula-in-Ano 206
 - Pilonidal Disease (Jeep Driver's Disease, Barber's Disease) 208
 - Rectal Prolapse (Procidentia) 209

- Hemorrhoids 210
 - Ischiorectal Space and Ischiorectal Abscess 212
- 17. Liver 215**
- Liver Anatomy 215
 - Management of Hydatid Liver 218
 - Differential Diagnoses of Space-Occupying Lesions in Liver 220
 - Management of a Case of Amebic Liver Abscess 220
 - Management of Liver Trauma (WSES 2020 Guidelines) 221
 - Hepatocellular Adenoma 223
 - Cavernous Hemangioma 224
 - Focal Nodular Hyperplasia 224
 - Child-Turcotte-Pugh Scoring 225
 - Model for End-Stage Liver Disease—Sodium Score 225
- 18. Gallbladder and Bile Duct 227**
- Anatomy 227
 - Gallstone Disease 227
 - Types of Cholecystitis 228
 - Medical and Surgical Jaundice 231
 - Mirizzi Syndrome 234
 - Complications of Laparoscopic Cholecystectomy 236
 - Choledochal Cyst 238
 - Hemobilia and Bilhemia 239
 - Common Bile Duct Stones and Management 240
 - Biliary Strictures 242
 - Courvoisier's Law 242
- 19. Pancreas 245**
- Acute Pancreatitis 245
 - Pseudocyst Pancreas 250
 - Insulinoma 250
 - Cystic Pancreatic Neoplasms 252
 - Pancreatic Duct Disruption 255
 - Chronic Pancreatitis 255
- 20. Spleen 262**
- Massive Splenomegaly and Hypersplenism 262
 - Splenic Injury Management (WSES 2017 Update with AAST Guidelines) 263
 - Complications of Splenectomy 264
- 21. Hernias 267**
- Meshes Used in Hernia Surgery 267
 - Ventral Hernia 268
 - Anatomy of the Umbilicus 270
 - Adult Umbilical Hernia (Paraumbilical Hernia) 272
 - Open and Laparoscopic Anatomy of Inguinal Region 272

- Direct and Indirect Inguinal Hernia 276
- Classifications of Inguinal Hernia 277
- Treatment for Inguinal Hernia 278
- Femoral Hernia 279

22. Gastrointestinal Oncosurgery 283

- Esophageal Carcinoma 283
- Carcinoma Stomach 286
- Small Bowel Adenocarcinoma 289
- Carcinoid Tumor and Carcinoid Syndrome 289
- Site-specific Points on Carcinoids 291
- Gastrointestinal Stromal Tumor 292
- Colorectal Cancer 294
- Rectal Cancer Management 298
- Carcinoma Anal Canal 299
- Hepatocellular Carcinoma 299
- Carcinoma Gallbladder 301
- Cholangiocarcinoma 303
- Pancreatic Cancer 305
- Pancreatic Neuroendocrine Neoplasm 306
- Pseudomyxoma Peritonei 307

23. Miscellaneous Topics Relevant to Gastrointestinal Tract and Abdomen 311

- Burst Abdomen 311
- Abdominal Compartment Syndrome 312
- Peritonitis: Types and Management 313
- Mesenteric Cyst 314
- General Anatomy of Abdominal Wall and Peritoneal Layers 315
- Lesser Sac Boundaries 316

Section 3: Genitourology 319

24. Kidney and Ureter 321

- Renal Calculi 321
- Calculus Anuria 323
- Management of Stone in the Lower Third of Ureter 324
- Retrograde Intrarenal Surgery 325
- Extracorporeal Shockwave Lithotripsy 325
- Percutaneous Nephrolithotomy 326
- Urinary Diversion 328
- Renal Tuberculosis 329
- Renal Trauma Management 332
- Ureteric Trauma/Injury Management 334
- Hematuria Management 335
- Pyelonephritis 336

- Pyonephrosis 338
 - Hydronephrosis 338
 - Wilms Tumor 339
 - Horse-shoe Kidney 341
 - Pelviureteric Junction Obstruction 342
 - Classification of Renal Masses 343
 - Acute Kidney Injury 344
 - Chronic Kidney Disease 346
- 25. Urinary Bladder 350**
- Bladder Calculi 350
 - Management of Bladder Injury 351
 - Vesicovaginal Fistula 352
 - Micturition Reflex 354
 - Types of Incontinence and its Management 356
 - Chyluria 357
 - Vesicoureteric Reflux 357
 - Ectopia Vesicae 359
- 26. Prostate 362**
- Benign Prostatic Hypertrophy and Lower Urinary Tract Symptoms 362
 - Management of Acute Urinary Retention 365
 - Prostate-specific Antigen 366
- 27. Testis and Scrotum 369**
- Embryology 369
 - Cryptorchidism 370
 - Testicular Torsion 372
 - Epididymo-orchitis 373
 - Varicocele 374
 - Hydrocele 375
 - Fournier Gangrene 376
 - Differential Diagnoses of a Scrotal Swelling 377
 - Vasectomy 377
- 28. Penis and Urethra 380**
- Phimosis 380
 - Paraphimosis 380
 - Circumcision 380
 - Penile Ulcer and Lymphadenopathy 381
 - Urethral Injury Management 382
 - Management of Urethral Stricture 383
 - Lasers in Urology 384
 - Posterior Urethral Valve 385
 - Proteinuria 387
 - Male Infertility 388
 - Congenital Anomalies of the Genitourinary Tract 390
 - Hypospadias 391

29. Uro-oncology	394
● Renal Cell Carcinoma	394
● Carcinoma Urinary Bladder	399
● Carcinoma Testis	402
● Carcinoma Penis	406
● Carcinoma Prostate	410

Section 4: Neurosurgery **415**

30. Neurosurgery	417
● Cerebrospinal Fluid Physiology and Hydrocephalus	417
● Hydrocephalus	418
● Head Injury	420
● Glasgow Coma Scale	421
● Urgent CT Scan Indications in Brain Trauma	422
● Intracranial Pressure Monitoring in Head Injury	423
● Management of a Patient with Head Injury	424
● Extradural Hematoma	426
● Subdural Hematoma	427
● Neural Tube Defects/Dysraphisms	429
● Neurocutaneous Syndromes (Phakomatoses)	432
● Functional Neurosurgery	435
● Stereotaxy and Navigation in Neurosurgery	436
● Frame-based Stereotaxy	437
● Frameless Stereotaxy (Neuronavigation)	438
● Seizure, Epilepsy and Surgery	440
● Stem Cells in Neurosurgery	442

Section 5: Cardiothoracic and Vascular Surgery **447**

31. Cardiothoracic Surgery	449
● Interpretation of Chest X-ray	449
● Empyema Thoracis	458
● Chest Trauma Management	459
● Hemothorax	460
● Cardiac Tamponade and Management	461
● Intercostal Drainage Using Chest Tube	463
32. Peripheral Arterial Disease for Lower Limb	465
● Arteries of Lower Limb	465
● Risk Factors for Peripheral Arterial Disease	465
● Common Causes of Peripheral Arterial Diseases	466
● Difference Between Atherosclerosis and Burger Disease	466
● Clinical Features and Investigations for Peripheral Arterial Disease	466
● Gangrene	469
● Management of a Case of Peripheral Arterial Disease	470
● Burger Disease	472

● Amputation	472
● Role of Sympathectomy	474
● Endovascular Management of Peripheral Arterial Disease	475
● Diabetic Foot	476
33. Peripheral Venous Diseases	480
● Superficial System	480
● Deep System	480
● Perforator System	480
● Risk Factors for Varicose Veins	481
34. Miscellaneous Topics in Cardiothoracic and Vascular Surgery	485
● Raynaud Phenomenon	485
● Thoracic Outlet Syndrome	485
● Lymphedema	487
● Hodgkin's and Non-Hodgkin's Lymphoma	488
Section 6: Breast and Endocrine Surgery	493
35. Breast Diseases	495
● Key Named Conditions/Classifications/Triads in this Section	495
● Anatomy of Breast	496
● Nipple Discharge and its Management	498
● Aberrations of Normal Development and Involution	499
● Mammary Duct Ectasia (Zuska Disease)	500
● Phylloides Tumor	501
● Paget's Disease of Nipple	501
● Gynecomastia	502
● Evolution/Natural History of Breast Cancer	503
● Lobular Carcinoma in Situ and Ductal Carcinoma in Situ	503
● Staging of Breast Cancer	504
● Triple Breast Assessment	506
● Trucut (Core Needle) Biopsy in Breast Lumps	506
● Risk Factors for Breast Cancer	507
● Early Breast Cancer, Breast Conserving Surgery and Axilla Management in Breast Conserving Surgery	507
● Management of Locally Advanced Breast Cancer	510
● Breast Reconstruction	511
36. Diseases of Thyroid	516
● Embryology	516
● Blood Supply of Thyroid Gland	517
● Thyroglossal Cyst and Fistula	517
● Classification of Thyroid Swellings	518
● Solitary Thyroid Nodule	520
● Papillary Thyroid Cancer	521
● Follicular Thyroid Cancer	522

● Medullary Thyroid Cancer	524
● Grave's Disease (Diffuse Toxic Goiter)	525
● Complications of Thyroidectomy	527
37. Parathyroid and Adrenal	529
● Primary Hyperparathyroidism	529
● Adrenal Incidentaloma	531
● Men Syndrome (I, II, III or IV)	532
38. Endocrine Emergencies	536
● Thyroid Storm	536
● Myxedema Coma	537
● Adrenal Insufficiency	539
Section 7: Radiology	543
39. Basics of Radiology and Imaging Approaches for Surgeons	545
● Key Signs in Surgical Radiology	545
● Basics of Computed Tomography (CT Scan)	548
● Basics of Ultrasound	550
● Endoscopic Ultrasound	555
● Intraoperative Ultrasound	556
● Basics of Magnetic Resonance Imaging	558
● Basics of Radionuclide Scanning	560
● PET Scan	562
● Intravenous Pyelography	565
● Micturating Cystourethrogram	567
● Endoscopic Retrograde Cholangiopancreatography	569
● Magnetic Resonance Cholangiopancreatography	571
● Radionuclide Imaging in Various Musculoskeletal Disorders	573
● Radionuclide Imaging in Various Thyroid Disorders	576
● DMSA and DPTA Scan	579
● Mammography Technique and Interpretation—BI-RADS	582
● Fast for Evaluation of Trauma Patients	585
● Imaging Approach in Patient with Acute Intestinal Obstruction	588
● Role of Barium Swallow in Evaluation of Dysphagia	591
Section 8: Miscellaneous	601
40. Anesthesia	603
● Spinal Canal and Nerve Applied Anatomy/Physiology	603
● Spinal Ligaments	603
● Important Surface Anatomy Landmarks	604
● Epidural Space	605
● Meningeal Layers	605
● Muscle Relaxants	606
● Regional Anesthesia	608

- Spinal Regional Anesthesia 609
- Epidural Anesthesia and Analgesia 611
- Brachial Plexus Block 612
- Caudal Block 613
- Cervical Blocks 614
- Nerve Block and Field Block 614
- General Anesthetics 615
- Postoperative Mechanical Ventilation 617
- Central Venous Pressure Monitoring 618
- Postoperative Pain Management 620
- Adult Basic Life Support 622
- Advanced Cardiac Life Support 622

41. Skin Malignancy 625

- Premalignant Skin Lesions 625
- Squamous Cell Cancer 625
- Basal Cell Carcinoma 627
- Pigmented Nevus 628
- Malignant Melanoma 629

42. Plastic Surgery 632

- Basics of Plastic Surgery—Reconstructive Ladder and Elevator 632
- Anatomy of Skin 632
- Classification of Skin Grafts 633
- Classification of Flaps 633
- Management of Burns 636
- Assessment of Depth of Burns 637
- Prehospital Care of Burns Patients 637
- Pathophysiology of Thermal Burns 640
- Vascular Anomalies 640
- Basics of Scar 641
- Cleft Lip and Cleft Palate 642
- Pilonidal Sinus 644
- Hidradenitis Suppurativa 645

43. Head and Neck Surgery 648

- Anatomy of Neck 648
- Facial Layers of Neck 649
- Epulis, Odontomes and Adamantinoma 650
- Cervical Lymph Node Levels and Neck Dissection 651
- Leukoplakia 654
- Cystic Hygroma 654
- Hemangioma 655
- Branchial Cyst and Fistula 655
- Carcinoma Oral Cavity 656
- Ranula 660
- Complications of Tracheostomy 660

44. Oncology and Oncosurgery Basics	663
• Immunotherapy in Cancer Treatment	663
• Checkpoint Inhibitors	666
• Neoadjuvant Chemotherapy	666
• Cancer Screening and Prevention	667
• Tumor Markers	668
• Oncogenes	669
• Tumor Suppressor Genes	670
• Sacrococcygeal Teratoma	670
• Sentinel Lymph Node Biopsy	671
45. Transplantation	674
• Liver Transplantation	674
• Kidney Transplant	675
• Pancreas Transplant	676
• Important Terms in Transplant	677
• Important Antigens Involved in Transplant	677
• Brain Death	677
• Rejection and Transplant	680
• Immunosuppressant Drugs	680
46. Pediatric Surgery	684
• Principles of Pediatric Surgical Sciences	684
• Principles of Pediatric Trauma	686
• Esophageal Atresia and Tracheoesophageal Fistula	688
• Diaphragmatic Hernias (Both Congenital and Acquired)	690
• Congenital Hypertrophic Pyloric Stenosis	694
• Congenital Anterior Abdominal Wall Defects	695
• Annular Pancreas	696
• Neonatal Intestinal Obstruction	698
• Anorectal Malformation	700
• Hirschsprung's Disease	701
Index	705
